FROM YOUR COACH

Aarav, you moved from 64 to 77 this month, and that is earned, not luck. The highlight: 31-day streak. One thing your data shows: in August, you logged 2.7 meals a day on weekdays and 1.8 on weekends. Next month, focus on one thing: complete 15 planned workouts. It is worth about 2.5 points on its own. Reply to me any time — I read every message.
