What moved your score

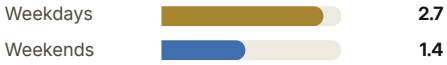

Score 80 A

The patterns behind your two weeks

From your last 4 weeks

Weekends cost you meals logged

Over the last 4 weeks, you logged 2.7 meals a day on weekdays and 1.4 on weekends.

Better nights, better days

Your mood averaged 4.1 of 5 after 7 h+ sleep and 2.8 of 5 after shorter nights.

You stay on plan under stress

On calm days you logged 1.3 meals; on high-stress days, 2.7.

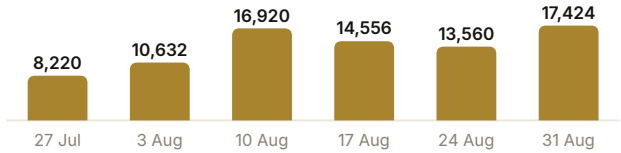

Patterns compare your own days with each other. They show what tends to go together, not proof of cause.

FROM YOUR COACH

Aarav, you moved from 76 to 80 this fortnight, and that is earned, not luck. The highlight: 14-day streak. One thing your data shows: over the last 4 weeks, you logged 2.7 meals a day on weekdays and 1.4 on weekends. Next fortnight, focus on one thing: complete 8 planned workouts. It is worth about 1.9 points on its own. Reply to me any time — I read every message.

— Kling, your BodyBank coach

Your BodyBank Score is calculated the same way every fortnight from what you log, so your trend is always comparable. Grades: A+ 90+, A 80+, B 70+, C 60+, D 50+, E below 50.
