How your habits connect

Between your last two blood tests, 5 markers moved toward range (HbA1c, Vitamin D (25-OH), LDL Cholesterol and 2 more). This month you logged 81% of meals and completed 72% of planned sessions — the kind of steady routine that tends to show up in follow-up tests. This section is informational only. Please discuss the flagged markers with your doctor.

From your blood report analysis: Most markers moved toward their reference ranges since March. Vitamin D and triglycerides are still outside range.

Discuss with your doctor: Vitamin D (25-OH), Triglycerides

INSIGHT
9 of 9 markers you have tested twice improved or sit in range.

ACTION
Book a follow-up with your doctor for the flagged markers and keep your habits steady until then.

A NOTE FROM YOUR COACH

Aarav, thank you for the work you put in this month. I can see real effort in your workout and check-in, and that is exactly what builds results. Next month I want us to tighten up your yoga and nutrition — small, repeatable steps, not a big overhaul. Your three targets for next month are set out in this report — message me any time something gets in the way. I am in your corner.

— Kling, BodyBank

INSIGHT

Your score moved up 13 points to 77 (B) this month.

ACTION

Start with yoga — the three targets above are your plan for next month.
